PROJECT NAME	Automated Car Catalog System For Enhanced Showroom Management

MILESTONE 8: RESULT

PURPOSE:

The primary purpose of an Automated Car Catalog System for Enhanced Showroom Management is to streamline and optimize the management of a car showroom by automating the cataloging, inventory, and customer interaction processes. This system aims to improve efficiency, reduce manual effort, minimize errors, and ultimately enhance the overall customer experience.

USE:

An Automated Car Catalog System for Enhanced Showroom Management helps streamline the management of car dealerships by automating tasks like car inventory management, customer relationship management, and sales reporting. It offers features such as adding, updating, and deleting car information, managing customer inquiries, and generating various sales reports. This system aims to improve efficiency, reduce manual errors, and enhance overall showroom operations.

ACTIVITY 1: TESTING RESULT
